Education

National Institute of Technology, Silchar 2022 – 2026
B.Tech in Electronics and Instrumentation Engineering CGPA: 7.9

Indian Institute of Technology, Madras 2023 – 2027
B.S in Data Science and Programming

Professional Experience

Business Technology Solutions Associate Intern: Jan – Jun 2026 | Full-time: Jul 2026 – Present
ZS Associates, Bengaluru, India

- Develop Apex classes, triggers, and REST endpoints on the **Salesforce platform** for a global pharma client's patient-services product, shipping business logic for enrollment, consent, and medication-request workflows.
- Automated environment data seeding by scripting **150+** uniquely keyed, authenticated REST payloads.
- Engineered patient-journey **Reports & Dashboards**; generated case-status records via Apex for client demos and UAT sign-off.
- Co-authored a **Salesforce Experience Cloud vs. Power Pages** evaluation (licensing, SSO, analytics) presented to client stakeholders.
- Implemented client-specific edge-case logic as an intern; **converted to full-time** on the same engagement.

SDE Intern May 2025 – Jul 2025
ERNET India, Bengaluru

- Implemented REST-based API workflows aligned with ONDC protocol specifications.
- Assisted in backend integration tasks, handling structured data exchange between services.

Trainee Dec 2024 – Jan 2025
Indian Oil Corporation Limited, Guwahati

- Analyzed PLC and DCS architectures in a live Thermal Power Station unit; authored the technical study report.

Projects

Aura-3D Navigator **Playstore Link**

- **Description:** An innovative **3D mapping** application powered by Gemini technology to provide detailed, **real-time** spatial visualization and navigation.
- **Features:** Seamlessly integrates Unity and Flutter for **indoor navigation**, offering a **10×10 grid-based** spatial mapping experience.
- **Technologies Used:** Flutter, Dart, Unity 3D, Gemini API, OpenStreetMap, Firebase, Android Studio, Play Console.

SellSphere AdXchange May 2024 – Aug 2024
Indian Institute of Technology, Madras(Project Report)

- **Impact:** Engineered backend services for campaign and advertisement management in Flask with role-based authentication.
- **Result:** Designed the relational database schema and implemented modular REST API workflows.
- **Technologies:** Flask, SQLAlchemy, SQLite, REST APIs, HTML, CSS, Jinja2.

Nanolink Aug 2023 – Aug 2024
Google Developer Student Club

- **Impact:** Designed and developed a full-stack URL shortening service used by 500+ users.
- **Result:** Implemented REST APIs for link generation and redirection while optimizing database indexing for scalable and efficient lookups.
- **Technologies:** Node.js, Express.js, MongoDB, Prisma, REST APIs, Git, AWS.

Skills

Languages:	C++ (STL), Python, JavaScript, SQL
Backend & Web:	Node.js, Express.js, Flask, REST APIs
Salesforce:	SOQL, LWC, Reports & Dashboards, Experience Cloud
Databases:	MySQL, MongoDB, SQLite
Tools:	Git, AWS, Postman, Linux
Core Concepts:	Data Structures & Algorithms, OOP, DBMS, Operating Systems, Complexity Analysis

Positions of Responsibility

- **Google Developer Student Club, NIT Silchar** Cloud Team, Marketing Executive; organized Web Blitz 4.0 and Prototype Plenary 4.0.
- **Illuminits, NIT Silchar** — Junior Executive; coordinated Graffiti and Premier League events with 60+ participants.
- **Sundarbans House, IIT Madras** — Marketing and event management executive.
- **White Hat Guild, IIT Madras** — Core executive, Cyber Security Club; delivered workshops in 2024 and 2025.

Certifications

•Solved 500+ DSA problems, actively participated in coding contests across LeetCode(Guardian:2416), CodeChef, Codeforces(Pupil:1200)
•Completed Foundation Level in Programming and Data Science from IIT Madras
•Completed Diploma in Programming from IIT Madras
•Google Cloud Skills Boost
•Social Summer of Code
•Robotics Workshop by IEEE
•Gen AI Study Jams
•Drone Workshop by MEITY
